Hello! I am an aspiring full-stack developer with beginner knowledge about full stack development. I am also interested in game programming/design.

Work Experience

Software Developer Intern

IBM

May 2019 to August 2019

(Returning internship)

During the Summer of 2019, I was tasked with using python to continue testing a python implementation of LDAP and worked on a QA tool meant to improve testing without our Team.

Skills Used - Python, LDAP, Sketch

Summer Software Developer Intern

IBM

May 2018 to August 2018

During the Summer of 2018, I was tasked with using python to create a GDPR focused script and testing a full python LDAP solution for an internal IBM product.

Skills Used - Python, Regular Expression, React JS, HTML, CSS, Javascript, LDAP

Intern Software Developer

SAIC

May 2017 to August 2017

During the Summer of 2017, I was employed as an Intern at SAIC, which is one of the top 15 Federal Contractor in the United States of America, and we handled an internal app that helped SAIC employees in everyday endeavors and helped the company's overhead decrease. My part on the team was to handle the backend and be the AWS admin.

Research Assistant

Morgan State University

June 2016 to May 2017

The research is centered on Image Medical Informatics and Information Retrieval. I am in charge of the Front End aspect of the project which specializes in the Amazon Mechanical Turk (MTurk) User Interface and a bit of Image Processing written in JS and HTML. It will be integrated with MTurk and sent to workers to collect data on 300,000 images.

Teachers Assistant

Morgan State University

August 2016 to December 2016

(6 Months)

I am employed by Google's diversity initiative at Morgan State University to help students gain a deeper understanding of Python and equip them with the ability to think like a computer scientist.

Education

Bachelor's in Computer Science

Morgan State University - Baltimore, MD

August 2015 to Present

Skills

Amazon web services, C++, Javascript, Node.js, Python, Ldap, Java, Web services, Restful web services, Wireframing, CSS, Git, MYSQL, HTML 5, JQuery
